███████

Per your request concerning the web design program, ███ ████ have outlined a potential minor (a conservative approach) that, in our opinion, could attract new as well as existing students to the program. I spoke with several Department Chairs who agree with the blending of art and technology courses; and, the interdisciplinary approach could result in many in-field employment opportunities which would substantiate a quality program. Below is a course outline for the proposed minor (i.e., ***Web Design for the Entrepreneur***).

*ART 115	Design Fundamentals
**CIS ???	Survey of Website Design
*ART 132	ART 132 Graphic Design Fundamentals
*ART 434	Web Design
**ART ???	Video and Audio for Websites
*CIS 435	Web Design and Development
*MIS 347	Internet & Social Media Marketing for Business
**CIS ???	Implementing a Web-based Entrepreneurship (Capstone)

* Existing courses
** Courses to be developed

Forecasted costs associated with the program

Equipment (Video and Pictures)	Quantity	Total Cost
Canon EOS 80D DSLR with 18-55mm STM Lens and Premium Kit: **$1,086.89**	2	$2200
*I3d Themes 2232 Proxima Website Developer Site License + Sever-side Enhancements ($299 + $2,594)	1	$2,900
Webhosting: Two accounts: $100 per year	2	$200 per year.

If you would like to discuss and view details of the program, please email us.

Thank you,
███ and Karl
